

06 April 2020

Students: There have been (6) six lessons posted on the School's website for your online education experience. I have already corresponded with several Jr. High and High School students. I need to hear how you are doing with online reading activities and video learning. An **additional assignment** for you this week is to email or text me how you are doing! If you're having problems finding assignments on Learn360, I need to know. Send me a message by email or text this week by **Thursday, 04-09-20**. In your message tell me who you are and how things are going. Something simple is great, or if you're having problems like some students, tell me about it. We can trouble shoot those issues together.

If I do not hear from you I cannot give you credit for online activities. I may have to give you paper activities to work & turn in for credit on the 5th & 6th Six weeks for this year.

Mrs. Johnson
Social Studies
